Career Objective

As a Frontend Developer, I have a solid foundation in HTML, CSS, JavaScript and React. I focus on building responsive and user-friendly web applications using Tailwind CSS and React Router for smooth navigation.

Skills

Frontend : HTML| CSS | Tailwind | JavaScript | React.js | Context API.

Backend: Node.js | Express.js | MongoDB | JWT | RESTful API.

Tools: Git | GitHub | Figma | Firebase | VS code | Vercel | Netlify.

Projects

Smart Mess Management System   [live Link](#) | [Client Code](#) | [Server Code](#)

Features:

● Dynamic mess management system enabling multiple managers to handle their members, meals, and payments in real-time.

● Managers can be rotated monthly, and members can only view their own profiles for secure access control.

● Implemented secure authentication with JWT and Firebase Google Auth for data privacy and role-based access.

Tech Stack: Tailwind CSS | React.js | Node.js | Express.js | MongoDB |Firebase | JWT.

Klypto   [live Link](#) | [Client Code](#) | [Server Code](#)

Features:

● A platform where sellers list products and admin Manages operations, built as a role-based eCommerce system.

● Users can browse and purchase products with dedicated customer support and communicate with sellers when needed.

● Secured the platform with JWT role based and Firebase authentication for admins, sellers, and users.

Tech Stack: Tailwind CSS | Framer Motion | Material UI | React.js | Node.js | Express.js | MongoDB |Firebase | JWT.

Education

Diploma In Computer Science & Technology   **Secondary School Certificate**

Sherpur Polytechnic Institute   Osmanpur High School

2022 – Present   2016 -2021

Additional

Bd Calling It Limited (Industrial Attachment)   September, 2025 - Present
